## Soda Cap Connector

Soda Cap Connector is a device that allows you to connect a soda can to a water bottle or other container. It is a small, plastic device that fits over the top of the soda can and seals it with a rubber gasket. The connector is designed to fit over the top of a water bottle, allowing you to drink soda without opening the can. It is a convenient and hygienic alternative to traditional soda openers and is ideal for sports enthusiasts or anyone who needs to consume soda on the go.
